As of March 2025. Investing involves risk, including possible loss of principal. Periods over one year are annualized. Please see disclosures for additional information on performance.

Risk Considerations

- The potential for profit is accompanied by the possibility of loss.
- Fixed Income investments are subject to interest rate risk; when interest rates rise, the price of debt typically declines. There is a risk that an investment will decline in value.
- Potential investors should be aware that fixed Investments carry credit risks, default risk, liquidity risks, currency risks, operational risks, legal risks, counterparty risk and valuation risks.
- Non-investment grade securities offer a potentially higher yield but carry a greater degree of risk.

Indices are unmanaged and do not take into account fees, expenses and transaction costs are not available for direct investment.

Bloomberg U.S. High Yield 2% Issuer Constrained Index is a component of the U.S. Corporate High Yield Bond Index with a maximum exposure of 2% per issuer. The index includes all fixed income securities having a maximum quality rating of Ba1, a minimum amount outstanding of \$150 million, and at least 1 year to maturity. The Bloomberg U.S. Corporate High Yield 2% Issuer Constrained Index covers fixed rate, noninvestment grade securities rated BB+ through C by S&P. No single issuer can comprise more than 2% of the Index. Information regarding the comparison to the Bloomberg High Yield 2% Issuer Constrained Index is available upon request.

Composite performance results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Gross performance shown does not reflect the deduction of investment management fees and certain transaction costs, which will reduce portfolio performance. Net performance results reflect a reduction for investment advisory fees based on the firm's applicable asset management fee schedule. Effective March 2021, composite net performance is calculated using the highest applicable fee as shown in the composite fee schedule. Prior to March 2021, composite net returns were derived based the aggregation of underlying portfolios net returns that were either calculated by applying actual client fees for non-affiliated clients or a model tiered fee schedule for affiliated clients, unless otherwise noted. Composite net returns after January 1, 2011, are inclusive of performance-based fees (where applicable). Performance-based fees are accounted for on a cash basis. Prior to January 2003 certain commingled funds which returns may be utilized in a Composite's performance track record had net returns that reflected a deduction for administrative fees in addition to direct trading expenses and investment management fees. Therefore, the average fees will be higher during these time periods.
